

# GENDER PAY GAP

## 2021 - 22

PRODUCED BY DATAPLAN PAYROLL LIMITED

## PAY DATA

### DIFFERENCE IN HOURLY RATE

MEAN	MEDIAN
Women's mean hourly rate is <b>27.3% lower</b> than men's	Women's median hourly rate is <b>30.2% lower</b> than men's

In other words, when comparing mean hourly rates, women earn **72p for every £1** men earn

In other words, when comparing median hourly rates, women earn **69p for every £1** men earn

**The mean gender pay gap** – The difference between the mean hourly rate of pay that male and female full-time equivalent employees receive is 27.3%. This shows that, on average female staff across the Trust earn approximately a quarter less than their male counterparts. This gap has remained the same as last year. Last year the gap increased due to the Trust transferring in 4 new schools, which included 18 new senior leaders and employed more males in senior leadership positions at the capture date. In the last year, the number of schools in the Trust has not changed.

**The median gender pay gap** - The difference between the median hourly rate of pay that male and female full-time equivalent employees receive is 30.2%. This gap has decreased by 5.5% in the last year. Included in the whole data capture were 1103 employees, of which 103 were male employees, 14% of which were in leadership roles.

### PAY QUARTILES

# Supporting Statement

Gender Pay Gap – Humber Education Trust  
Published March, 2022

Humber Education Trust, at the data capture date of 31 March 2022, comprised of:

- 12 primary academies
- 4 special academies

Humber Education Trust is committed to the promotion of equality of opportunity and operates as an equal opportunities employer, taking appropriate steps to ensure that it does not discriminate in any way (as defined by the Equality Act 2010 and other relevant legislation), regarding recruitment, performance management and employee career development opportunities.

All our posts are aligned to nationally agreed pay scales and our male and female staff are paid within the same pay band for the same job role. This includes support staff posts being evaluated in line with our job evaluation scheme to ensure no gender bias.

The Gender Pay Gap is a high-level, non-adjusted indicator of male and female earnings which is affected by workforce distribution and workforce make-up.

The majority of our staff are in the lower pay quartiles and the workforce is predominantly female, therefore, the gap between the average female hourly rate of pay and the average male hourly rate of pay is significantly affected.

Humber Education Trust supports our staff with a number of family friendly provisions such as a leave of absence policy which includes family leave, part time and term-time working, which our (predominantly female) employees, including senior leaders, choose to take advantage of, and we are supportive of flexible working where it can be accommodated.
